1. Overview

EXIN Privacy & Data Protection Foundation (PDPF.EN)

Scope

EXIN Privacy & Data Protection Foundation (PDPF) is a certification that validates a professional's knowledge and understanding of the protection of personal data, the EU rules and regulations regarding data protection.

Summary

Wherever personal data is collected, stored, used, and finally deleted or destroyed, privacy concerns arise. With the EU General Data Protection Regulation (GDPR) the Council of the European Union aims to strengthen and unify data protection for all individuals within the European Union (EU). This regulation affects every organization that processes personal data of EU citizens. The EXIN Privacy & Data Protection Foundation certification covers the main subjects related to the GDPR.

The new standard in the ISO/IEC 27000 series: ISO/IEC 27701:2019 Security Techniques – Extension to ISO/IEC 27001 and ISO/IEC 27002 for Privacy Information Management – Requirements and Guidelines is useful for organizations that want to show compliance with the GDPR. The content of the new ISO standard helps fulfill the GDPR obligations to organizations regarding the processing of personal data.

Neither the GDPR nor the ISO standard are exam literature. However, the literature matrix in Chapter 4 is designed to show the link between the exam requirements, the literature, the GDPR and the ISO/IEC 27701:2019 standard to give the certification a broader context.

Context

The EXIN Privacy & Data Protection Foundation certification is part of the EXIN Privacy & Data Protection qualification program.

Target Group

All employees who must have an understanding of data protection and European legal requirements as defined in the GDPR. This certification is tailored to:

- data protection officers (DPOs)
- compliance officers
- security officers
- HR staff
- process and project managers

Requirements for Certification

- Successful completion of the EXIN Privacy & Data Protection Foundation exam.

Examination details

Examination type:	Multiple-choice questions
Number of questions:	40
Pass mark:	65%
Open book:	No
Notes:	No
Electronic equipment/aides permitted:	No
Exam duration:	60 minutes

The Rules and Regulations for EXIN's examinations apply to this exam.

Bloom Level

The EXIN Privacy & Data Protection Foundation certification tests candidates at Bloom Level 1 and Level 2 according to Bloom's Revised Taxonomy:

- Bloom Level 1: Remembering – relies on recall of information. Candidates will need to absorb, remember, recognize and recall. This is the building block of learning before candidates can move on to higher levels.
- Bloom Level 2: Understanding – a step beyond remembering. Understanding shows that candidates comprehend what is presented and can evaluate how the learning material may be applied in their own environment. This type of questions aims to demonstrate that the candidate is able to organize, compare, interpret and choose the correct description of facts and ideas.

Training

Contact Hours

The recommended number of contact hours for this training course is 14. This includes group assignments, exam preparation and short breaks. This number of hours does not include lunch breaks, homework and the exam.

Indication Study Effort

56 hours (2 ECTS), depending on existing knowledge.
